Ottawa, III., Jan. 8.—Sheriff Yockey left for Rutland village with sixteen special deputies, picked from the old militlamen, and armed with Martin repeating rifles, on a call for help from Deputy Matt Coulson, who has been on the ground ever since Monday night, when the miners at Emerson Hakes shaft threatened to raze the buildings The telegram to Sheriff Yockey was to the effect that between 200 and 300 Italians and Austrians were parading the streets and threatening to loot Haker's store and burn the shaft. The trouble grew out of a break in the scales, which weighed 450 pounds light. It was several days before the miners discovered this. The manager failed to keep his promise to repair the scales, and the men quit. He has re fused to pay them the money du elaiming they are not discharged, and must wait until payday, Jan. 16, for this money. The Rutland mines have been joined by miners from surround ing towns. MARRIED FOUR DAYS.

from Port Jervis, N. Y., to the Evening World says: The dead body of William Speldel, aged 24 years, was found down the Erle rallroad bank near the Delaware river today with a handkerchief stuffed in his mouth and his face fearfully distorted, the result of being choked to death, with his pockets turned inside out.

Speidel had been married only four days. It is thought that the murder is the work of tramps. The victim had lately been employed on the dairy farm of Ludwig Laux on the outskirts of the village, and was undoubledly attacked and murdered on his way home.

REBATE CASES.

Santa Fe Actions on Trial in Chicago.

Chlengo, Jan. 8 .- The case against John A. Hanley for violation of the in terstate commerce laws prohibiting rebates was argued today, and it will go to the jury at the close of the afternoca session. The government placed on the stand Edward Wilder, secretary and treasurer of the Santa Fe road, to identify the minute book with respect to the change of name of the corporation Feb. 24, 1863.

Mr. Wilder did not prove an exception to the lack of knowledge displayed by the railroad officials, who have preceded him on the stand. He is not positive that the book in question was an officia one. It is the same, he said, and con tains the minutes of the stockholders meetings. He could not recognize some of the writing in the book as the personal work of his predecessor, C. W

Judge Grosscup was evidently under the impression that Wilder's officia position and the manifest character of the book were ample proof of identification, for he allowed the same to b admitted in evidence, despite Attorne, Forrest's objections. Gen. Black the led off in the argument for the prosecu tion. He was stopped just as he wa getting into his speech by an objectio of Attorney Forrest. Gen. Black de manded of the court that he be not in terrupted in such a manner during hl address. "Let Mr. Forrest have an exception to everything I say, but do not let him interrupt me.' The court told Mr. Forrest that I could jot down his objections and ex-ceptions would be allowed, but the gen-

eral must not be interrupted.

Sing Sing, N. Y., Jan. 8 .- On the first of the month convict labor was abolished in all the prisons of this state and today Frederick Hoffman, a pris-oner here, while depressed from lack of employment, threw himself from a gallery where he was taking exercise to the floor, seventy-five feet below. It is thought he cannot recover. Hoffmar told Warden Sage last night that he feared his mind would give way unless he had some work to do. He was

It was in the quaint old city of Boston. Francis Fitzpatrick, of Oskaloosa, the only son of the richest lumber dealer in Iowa, had gone East to obtain the polish that is so difficult to accumulate in the busy, prosy West, says the Cleveland Leader. Leader.

There he had met the beautiful Priscella Alden, whose ancestors had helped to tie the Mayflower up to her wharf in the days gone by, and, as readily may be supposed, fell in love with her at once.

He had reasons for hoping, too, that she returned his affection, and so one chilly evening, after they had been attending a parlor seance, he decided to know his fate.

But he was brave almost to necklessness, and whet, she had hung her costly wraps over he bangisters and he had kicked his goloshes under the baby buggy in the hall he took her by the little white hand and led her into the parlor.

Then he knelt beside her and said, in husky, trembling cones:

"Priscilla—you are no longer Miss Alden is in my heart? I know I am only the son of a man that owns \$3,000,000 wor h of lumber yards in Iowa, but I love you. I cannot help it. Oh, darling, do not say that you cannot be mine. Listen! will build a toboggan side a quarier of a millonly say the one little word that will make me happy for life. Priscilla, darling, will you be my little wife?"

Her breathing was short and labored, as she pushed him away, saying:

"No! I cannot wed with you! Until this evening I thought I loved you; but I have learned that it is not love. It was only admiration, and that, alas, is gone."

"Priscilla! Priscilla." he cried. "You unman me! Tell me what I have done! Oh, heaven! My brain is on fire. I must know what I have done to forfelt your esteem or I cannot survive.

He occasionally combines two or more of his main projects. Notwithstanding his piety, at times he joins pelf and polltles in the same pursuit. He did so when he raised \$100,000 for the Harrison campaign fund in 1888 and was appointed postmaster general as a reward for his enterprise and success in furnishing the boodle. It was well understood at the time that Wanamaker engaged in this vast boodle effort at the suggestion of Quay, who was the Republican national chairman in ISSS. That the pious old fraud should have turned against Quay this year and made a senatorial eampaign on the platform of honest polities is an amazing and grotesque spectacle.

The righteous indignation of the campaign boodler of 1838 at his defeat by Quay for senator in 1897 is a matter of ridicule. Lack of success in politics, how-

"That unwise movemen, from the farm to the city which all the public have of late deplored tilling of the soil," etc.

This was different, and Le Grand himself, who sat with arms folded and head thrown back in the front row just under the platform, in order to be ready at hand to prompt his governorship in the difficult passages, was much put out at the plebian way in which David mutilated the passage, and with difficulty could restrain himself.

The word "metallurgy," in the chapt ron the university, also puzzled hizzone. After stabbing at it once or twice, the governor concluded that the reverend author was talking about theological matters, and so pronounced the word something like "mythology." It was with great wisdom that the governor steered clear of the chapter on animal diseases and turned that down entirely without reading. How

Those who are familiar with the literary style of Mr. Powers miliar with the literary style of Mr. Powers support this statement with internal evidence. This also explains the unusual artivity of Mr. Powers in the various capitol departments which has been noted by the newspaper fraternity buring the past few weeks. Certainly the phrascology, as well as length, is very Power-like and exceedingly un-Clough-like. No wonder the governor could not pronounce all the words, and had to omit reading numerous manuscript pages covering some circumizentry.

For the Rainy Lake Business.

Virginia wants it is evidenced by the injunction suit which prevented the injunction is a suit which county commissioners from so extending the Miller trunk road as to still further add to the possibilities for com-munication between Tower and Rainy Lake. If the injunction ordered by Judge Moer recently continues in force it will mean that the board will have to build a direct line, or as nearly direct as possible, from Virginia to Crane Lake, and this will undoubtedly divert much of the Rainy Lake trade Now Hibbing wants that traffic with the gold fields. It already has a winter road to Koochiching, on Rainy river, but it wants an all-the-year road, and strenuous efforts will be made to ge it. There is already a winter road be-tween Grand Rapids, in Itasca county, and Koochiching. D. M. Gunn, the

Written by Anthony Hope, dramatized by Edward Rose, handsomely mounted by Daniei Frohman, and excellently acted by his Frohman, and excellently acted by his Lyceum company, there is much more than the usual interest to be attached to the event. "The Prisoner of Zenda" is conceded to be the most entertaining drama of modern times. The spirit and humor of the story are preserved in the play, and it is all perfectly intelligible to one who has not read the book. The elements of a romance conceived in a whimsical mood, but earried forward seriously, involving splendid episodes of heroism and adventure, moonlight escapades, brave riding through forests, hand to hand combats and perlious happenings have been skillfully compressed into a play of absorbing interest. The curtain will rise at 8 o'clock sharp.

A voice shouted loudly: "The whole proceedings are a fraud." The interuption came from an elderly gentlenan of clerical appearance. He was speedly and forcibly ejected amid considerable excitement. The spectators at first thought that the disturber was the Rev. Brown John, the clergyman who protested against the confirmation of the archbishop in the church of St. Mary-Le-Bow, London, on Dec. 22. claiming, ineffectually, that the archbishop should not be confiremd, as he was a believer in Darwins' theory of evolution. But it developed that the name of the interrupter today is Green good, and he is not a clergyman. Beelesiastical England (including Barricaded Himself in Wales) is divided into two great proinces, each ruled over by an archishop. The larger province, with

twenty-three dioceses, has its seat at Canterbury, the capital of the ancient kingdom of Kent; the smaller only nine diocess, at York, the capital of Northumbria. The archbishop of Canterbury has always held pre-eminent and universal authority over the whole kingdom. This pre-eminence is marked in the titles which the respective archbishops assume. Both are primates, but the archbishop of York is simply called primate of England. The archbishop of Canterbury, on the other hand, is primate of all England. Jonathan Carver, one of the first ex-plorers of the Northwest, makes mention in one of his boks of a large cave with walls covered with Indian pie ture-writing, and near the southern boundary of Minnesota, says a Winona. Minn., correspondent of the Boston Transcript. A Winona scientist has just located this cave, and it has been thoroughly explored. It is at Lamoill' sixteen miles south of Winona. Th entrance to the cave is semi-circular fifty feet wide and twenty feet high Upon entering, the fact is discovered that the cave is a large room, oblong in shape. This chamber is one hundred feet long, running from side to side and about seventy feet in width. The roof arches to a height of nearly twenty-five feet. The walls are found to be a mass

Indian writings. Among the figures is that of a man nearly six feet long and well proportioned. A space, where the water has prevented people from marring it, is literally covered with drawing of raccoons, eagles, muskrats, beavers, rattlesuckes of all lengths, birds, buffalo heads and nosts of other animals. The pictures are beyond doubt the work of Indian tribes, mostly the Sioux, who lived in the reglon for centuries.

One is Mr Flinn's bill to ratlfy the agreement nade with the Commanches, Kiowas, and Apache tribes of Oklahoma, by which the government is to secure their reservations for \$2,000,600. Every Indian over 18 years of age is permitted to reserve a homestead of 160 acres, half grazing and half grain land. The first payment is to be of \$200,000, apportioned among the Indians, per capita, made within 120 days after the ratification; the second payment of \$200,000 within

ne year; \$100,000 in two years, and the balance in installments of 5 per cent a year, all to be per capita. The second is for ratification of the treaty of 1892 with the Turtle Mountain Chippewas of North Dakota for their lands. The right of reserving home-steads is given the Indians, and the ompensation is to be \$1,000,000; \$50,000 o be paid the first year, and the remainder in annual installments through a period of twenty years. The rest to be in food, clothing, horses, cattle, seed and farming implements. The only other candidate permitting the unrustricted use of his name is ex-Senator Corbett, who is 70 years old. His coming to Salem is apprehended by Mitchell's friends not without fear. Another who is yearning for Mitchell's mantle is Joe Simon. It is conceded tha Simon will be elected president of the senate, and it is claimed, will be ready to announce his candidacy for the United States senatorship if a chance of success becomes clear.

The speaker said he had no information of such arrests. Thereupon, without further division, all proceedings under the order for arrest were suspended.

Mr. Bowers opened the opposition in an onsiaught on the management of the Pacitic roads and the bill. He characterized the measure as a plan to continue the most tyrannous monopoly that had ever been organized. It was a part of an infamous and fraudulent transaction; an attempt to prolong the grip of the "Anaconda of the Pacific coast."

Mr. Johnson opposed the bill. He made a statement of the enormous profits that individuals had made and the

Outraged and Murdered His Niece, Killed His Wife. Burned His Home.

Tracked by Bloodhounds He Was Forced to Confess His Guilt.

Brooksville, Ky., Jan. 9.-Robert Laughlin was hanged at 8:37. Following is the story of his crimes: On a farm near Augusta, Bracken county, on the night of Feb. 14, 1896, Robert Laughlin, a tenant and a farm laborer, was guilty of the triple crime of personal outrage to his niece and her murderer, and also the murder of his wife and arson. A jury accepted his wife and arson. A jury accepted his limited as three members appointed by the Canadian government, was to report on the feasibility, cost, route, necessary treaties, etc., for a deep waterway from the ocean to the great lakes.

The president now has the report and until he has digested it its contents will not be made public, Mr. Russell, the only member of the commission in town declining to give any intimation of the commission's findings. statement of their wishes with Speaker Jones and Lieutenant Governor Glbbs and those two officials are wrestling with the appointments, it is possible many of the senate committees will be constituted as two years ago, but there will be several changes. Sentaor Wyman will, from choice, retain chairmanship of the university committee, leaving the head of the fianance committee to Hodge. Potter and Greer will have corporations and tax, the more specific assignment not being yet certain. Sievsns has worked hard heretofore as head of the judiclary and is understood to want to step aside, allowing Sheehan that place. Stockton and Smith will have charge of railroads, the former being now in the lead. Thompson may head the insurance committee, Jones that on grain and warehouse, and Johnson, of Hennepin, that on reapportionment. statement of their wishes with Speaker In the house it is not so easy to predict appointments, but a few things seem pretty we'll settled. If Ferris, who headed rail-roads two years ago, wants it, he can stay there, but it is thought his preferences is for the game and fish law committee, which would leave a clear field for Love-joy as railroad chairman. E. E. Smith very probably will continue at the head of the insurance 'committee. Reeves will, without doubt, succeed Underleak as shief lawyer. Appropriations will 'be looked after by Jacobson, Shell or Staples, all thre of whom will be cared for.

and Others. Washington, Jan. 9.-No longer is private enterprise to be left alone in the struggle for the world's market, but hereafter the nations themselves will be obliged to come to the aid of their merchants and by expeditionary work, open up new fields for the cultivation of home trade. This is the view of United States Consul Sawter at Gulacheau, who in a report of the state department chronicles that the German government is to send out a deputation of experts to study and observe in detail, tho commercial, financial and industrial conditions of Eastern Asia. The entire expense is to be assumed by the government and the deputation will be guided on the tour through China by Dr. Knapp, the German consul at Canton. Mr. Sawler points to the fact that France and England have already taken up similar schemes of commercial exploration which have certainly future possibilities, and he fears that this last German move towards China is a serious menace to American trade with that vast country, just at a time when it is about to open wide their doors to trade. to the aid of their merchants and by ex-

New York reported liberal acceptances of wheat over night, and foreigners bought wheat both here and at the scaboard. The weekly shipments aggregated a larger total than was looked for and indications point to a moderate decrease in the visible supply Monday. An Advance in Wheat at Liverpool Followed by One Here.

Rise There Indicates Again the Independence of the English Markets.

Northwestern Receipts Were Also Light and Other News Bullish.

Wheat opened strong this morning at a dvance of 16c over yesterday's close The strength was altogether due to th unexpected firmness of Liverpool, which market showed an advance of 3d, notwithstanding the drop of 1911e yesterday n American markets, another illustration of the independence of the English markets. Northwest receipts were light, Minneapolis and Duluth reporting a total of 174 cars, as against 601 last year. It was known near the close that some export if quantity and grade of wheat could not he ascertained. The ramarkably flu showing of the New York bank statemen had some effect in favor of the buils. May wheat opened here be higher a SP4c and advanced bc. It eased off to the opening but again became strong and sold up to \$1%c. The close was at \$1½c, an advance of ¼c for the day. The elevators bought seven cars of each stuff at ½c under May. Following were the closing prices:

Washington County Politicians Have Lots of Fun.

St. Paul, Jan. 9.-(Special to The Her aid.)-When it comes to keeping politics at a white heat, no county in the state Is in it at all with Washington. Before the state convention last summer the barbs were all torn off the politica fence by the fight between the Wash burn and the Nelson factions. Neither side could put up a fence and keep it standing for a week at a time. Finally the leaders came together and agreed upon a compromise. The Nelson-Clough crowd, by John Zelch and his friends, reded to the Washburn-Clapp faction headed by Senator Masterman, th nomination of J. C. McIntosh for coun

y superintendent, and in return th

Masterman crowd conceded the shriev alty to Sutton. For a time everythin A Clough delegation came to the state convention, and peace and har mony seemed to reign. But when came to the county convention, Sutto was not nominated for sheriff. Ev dently there was others beside these i the deal. The Sutton men smothere their wrath, however, and worked for the election of the Republican ticke from top to bottom.
Immediately after election, however
the war broke out in a new spot alto
gether, and this time it is over the boile

aspectorship. Naturally John Zelch, wh succeeded Sutton, wants a reappointmet Sutton believes—that since he did not g o be sheriff, he should again have th boiler inspectorship, Scarcely a day passe but what a delegation calls at the cap tof on behalf of either Sutton or Zele Either party is making any great amon of noise, but they are each putting u as hot a fight as any old stager con-wish to see. Wish to see.
Incidentally, the friends of George M. Crae have put in a bid for him, and som other candidates also have applications in but they are all lost sight of in the ron test be ween the other two candidates. The ther candidates are simply after the boile inspectorship and nothing else, while a between Sutton and Zelch, it is not only question of salary or fees, but of prestig in Washington county politics.

McKINLEY'S GIFT.
The death of Professor Herrmann, the preddigitateur, recalls an incident that occurred at the last meeting between him and Maj. McKinley, says the Washington Star, Maj. McKinley and the famous slight-of hand performer had been friends for a long time, and Hermann never came to Columbus without calling on the governor when time, and Hermann never came to Colun-bus without calling on the governor when he was here. When he was last here Herrmann happened to stop at the hot-where Governor McKinley was making his home, and he called upon him there. As he started to go Professor Herrmann said: "Major, I may no: see you soon again, and I have never given you anthing by which you may remember me. Let me make you a present of this." And, taking his hand, he placed upon a finger a fine diamond-set ring. Maj. McKinley thanked him and ad-mired the ornament. Shortly after Herr-mann left: a friend who was present said: "Oh, by the way, governor, let me see that ring." The governor held up his hand, but was astonished to find that it vas gone. There was no need to ask question about the mystery. Herrmann had left as a me-mento the memory of a very clever tr'cs of which the major was the victim, instead of which the major was the victim, instead of the ring.

IN THE MATTER OF THE APPLICATION OF THE CITY OF DULUTH. A MUNICIPAL CORPORATION, TO REASSESS TO THE EXTENT OF THE HENEFITS ACTUALLY ACCRUING AGAINST THE PROPERTY BENEFITED THEREBY. THE COST OF THE FOLLOWING LOCAL IMPROVEMENT, TO-WIT:

'FOR GRADING, GRAVELING AND CARRYING OFF STORM WATER ON SHORT LINE PARK ROAD FROM THE GRAVEL PIT IN THE NORTH-WEST QUARTER OF SECTION FOUR (4). TOWNSHIP FORTY-EIGHT (48) NORTH, RANGE FIFTEEN (15) WEST TO SHORT LINE PARK, RUNNING FROM SAID GRAVEL PIT NORTH-WEST QUARTER OF THE SOUTH-EAST QUARTER AND THE NORTH-WEST QUARTER AND THE NORTH-WEST QUARTER AND THE NORTH-WEST QUARTER AND THE NORTH-WEST QUARTER OF SECTION FOUR (4), THE SOUTH-WEST QUARTER OF THE SOUTH-WEST QUARTER OF SECTION FOUR (4), THE SOUTH-WEST QUARTER OF SECTION FOUR (6), AND THE NORTH-WEST QUARTER OF THE NORTH-WEST QUARTER OF SECTION FOUR (6), AND THE NORTH-EAST QUARTER OF SECTION FIVE (5), ALL IN TOWNSHIP FORTY-EIGHT NORTH, RANGE FIFTEEN (15) WEST. TO SAID SHORT LINE PARK.

To whom it may concern:

Notice is hereby given that the city of Duluth, a municipal corporation of and located in the county of St. Louis and state of Minnesota has caused to be filed in the office of the clerk of the district court of the 11th judicial district within and for said county and state, a statement in writing setting forth the description and nature of a certain local improvement made and undertaken on or about the 21st day of September, 1895, in the sald city, and by said municipal corporation, to-wit:

For grading, graveling and carrying off storm water on Short Line park road from the gravel plt in the northwest quarter of the southeast quarter of section four

of the southeast quarter of section four (1), township forty-eight (48) north, range afteen (15) west to Short Line park, running from sald gravel pit northwesterly through the northwest quarter of the southeast quarter and the northeast quarter of the southwest quarter and the northeast quarter of the southwest quarter and the northeast quarter. southeast quarter and the northeast quarter of the southwest quarter and the northwest quarter of the southwest quarter of section four (4), the southwest quarter of the northwest quarter of section four (4), the northwest quarter of section five (5), all in township forty-eight north, range fifteen (15) west, to said Short Line park; and setting forth further that an assessment which on or about the first day of June 1895, was made to defray the costs and expenses mortgage duly executed and delivered by Frank W. DeVey and Grace DeVey, his wife, to Pauline L. Wieland bearing date the 5th day of January. A. I know that the mistress of a household is frequently untrained and uneducated in er duties, and has no one to blame but herself when she finds her house in a state of uproar, but when a careful mistress finds utter indifference and carelessness in the treatment of belongings which are dear to the heart of the owner, then it is time to drop the sentimental nonsense of philanthropy and come down to the soher realities of the clations existing between household servants and employers. It is a business relation, just as that between a merchant and his clerk, and though accidents will happen, and the kindhearted mistress is always willing to make allowance for occasional mis haps, still only when moral courage and pressure is strong enough to conchina, glass, linen and other household belongings-are so much in stock, then and then only, is the proper relation maintained. AMUSEMENTS.

SCHILLER VAUDEVILLES. A large audience at the Lyceum last night saw a good, thoroughly entertaining vaudeville performance, in which each of its features were excellent in its line. From start to close of its varid program there i not a dull moment. The cinematograph is the vitascope improved, apparently, with less of the latter's jerkiness, and the picture lack only color to make them appear absolutely life-like. A generous number of pictures are shown, all excellent. The favor ites were the pictures of a French factory at the closing hour, a quarrel between two babies over their toys, a number of pictures of French eavalry and infantry, and a picture of workmen tearing down a wall.

Mille. Alberto, the "dancing Quakeress," did some new and very difficult feats on a tight wire, and Miss Dorethea Grey, contraito, gave several pleasing vocal selections. Her voice is as strong and mellituous as a good tenor, with pleasing expression, and she has not a little dramatic force. Maj. James D. Doyle, the midget comedian, with the voice and statute of a boy and the wit of a man, gave a very bright performance. Sherman "the great," appeared in a unique contortion act in which he ille performance, in which each of its the wit of a man, gave a very bright performance. Sherman "the great," appeared in a unique contortion act, in which he tied his arms, his legs and himself in knots, turned himself inside out and all bu swallowed himself. Colby and Wary have an excellent specialty. Colby is a ventriloquist, one of the best of his kind, and Miss Wary as the dancing doll does a very pretty dance and looks very doll-like.

The Diltoulte brothers, who style themselves musical grotesques, are very grotesque and very musical. All their musical features are new, and their make-ups are as startling as could be wished. Popular airs were played on sleigh belts, on the tips of their gloves, the top of their hats, and in other unlooked for places.

The performance will be repeated tonight.

AN OLD SETTLER.

When the rheumatism first pre-empts certain tracts of your anatomy it may be ousted easily, but when it becomes an old settler it is pretty hard to budge. Remembr this when you experience the first twinges of this obstinate and agonizing disease, and attack it with Hostetter's Stomach Biters. It will then "make tracks," and possibly leave you unmolested and in peaceable possession of your own comfort in the future. Peril always attend rheumatism, if it become chronic, on account of its tendency to attack the heart. Usually it is complicated with kidney troubles. Certain it is that the kidneys, when aroused by the Bitters, will eliminate impurities which give rise to rheumatism and dropsy. In inclement or wet conditions of the weather, the Bitters, taken in advance, will often avert rheumatic trouble. Use this genial family medicine for dyspepsia, biliousness, headache and constipation. AN OLD SETTLER.

An English society gossip thus dis courses on the matrimonial invasion from America: Some girls, with pretty faces, America: Some girls, with pretty faces, full purses and numistakable accent, come over her or are brought across from the states with matrimonial intent. This little doll, therefore, has looked upon the most remarkable events of modern times, and it has not even aged her. When the war of the revolution was inaugurated she had already passed through the hands of several generations, and was really entitled to the respect due to a very venerable person. She was much older than Gen. Washington when he became the president of the United States and Gen. Lafayette must have seemed a mere boy to her. The events of the war of 1812 found her approaching her hundredth year, and each succeeding decade has added tremendously to the weight of her experience. The Illinois bank holds a note of William C. White for \$2500, made to the Security bank and sold by it to the Illinois bank. It was endorsed by the Security bank, and it is liable for the \$245 now due upon it. When the Security bank failed Mr. White had a deposit of \$057.45. The Illinois bank claiming that it could not collect from White, made a proposition that if the Security bank would pay over the amount of White's deposit it would be releaved from all liability, on the no e and on White's deposit.

Judge Moer ordered that the money be paid providing that the Bank of Illinois and W. C. White tile receipts in full of their claim against the Security bank with the clerk.

Protested Against Coasting on Avenues.

A hob sled on which a party of young people were coasting down Twentyfirst avenue west collided with Lakeside car No. 87 at Third street about 8:30 clock last evening. The shock was terrific and several of the coasters were quite seriously injured. Miss Lena Novak, of 2118 West Seventh street. sustained injuries to one of her feet that necessitated the amputation of the big toe of the member. Selina Teeman, residing on Sixth street near Twentyfirst avenue west, was bruised in the side, back and neck. She was helpless and in a semi-conscious condition when picked up. She breathed with great lifficulty for some hours afterward. and it is thought possible that she may have received internal injuries. Ida Teeman, Selina's sister, received severe bruises in one of her limbs. Frank Mosolf, of 607 West Seventh street, received a gash in the forehead, and his ster Pelda was cut about the The injured were taken into neighjoring stores, where their wounds were bound up, after which they were coneved to their homes. Martin Pearson, of 316 Twenty-first avenue west, and Charles Anderson, who saw the accident, attribute n blame to the men in charge of the car. It was running very slowly at the time, and so swiftly was the sled going that it would have been impossible to have stopped the car after the sled had come in sight of the motorman. The street railway people say that they have repeatedly called the attention of the police department to the dangerous practice of coasting on the

avenues, especially where the grade is teep. No attention has been paid to the matter by the police, they say, and appeals to the mayor have been equally barren of results. The motormen have een directed to exercise all possible caution, but in localities such as that where last night's easualty occurred it is impossible to forefend the chances of

Importation of lead ore was necessary for smelting, he held, and under an er roneous interpretation of the present law, it paid as high rates as 5 and 51/2 ents a pound. Dutles of 11/4 cents on lead bullion and 134 cents on pig lead were asked. American capital was invested in Mexico and British Columbia or producing the ores. John D. Davis, of California, asked or a duty of 1 cent a pound on lead ores. California could produce all the lead ores needed by American smelters. But the business had stagnated under

Dwight A. Jones, of New York, repesenting the St. Joseph Lead comoany, of Missouri, spoke for protection which would enable Americans to conserve their lead supply and prevent the abandoning of mines Representative Hermann, of Oregon, ound on nickel in behalf of his constituents. Mr. Hermann held that as oon as Americans got into the markets the Canadians combined to drive them out. Freight rates also favored the Canadian product. A reply was made by Robert A Thompson, of New York, the principa

efiner of nickel in the United States. His statement was that he and Mr Wharton, of Camden, the other chief efiner, had examined all the nickel had found that none of them could be made to pay at any reasonable duty. Steven Burke, of Cleveland, spoke for he Canadian Copper company, o which he is president, and which is en tirely an Ohio corporation. They had sold to the government copper and lickel mattes at 11 cents a pound when the market price was 22 cents, so that its value in armor plate might be proved. All the refining of their produc was done in the United States. Eng lish capitalists offered a market for a nickel matt, having an improved refining process. If a duty was put on th ore the refining in the United States would be stopped. He knew of no ore as rich as 10 or 15 per cent. In nicket the average was only 3 per cent. II. J. Cantwell spoke for the Missouri association of the lead miners. He said that the organization had nothing to do with the control of output on of prices that the labor cost of producing lead was so great a factor that it should not be classed as raw material. He continued that the present law was impossible of enforcement and complained of the smelting of ores in bond. He recommended that all ores containing 8 per cent of lead be dutiable at %c a pound on the mass. The price of ores in the United States would be the London price plus the duty and less the cert of price plus the duty and less the cost of transportation from London to New York The duty should exclude Mexican ores. The duty should exclude Mexican ores. The subject of pig iron was then taken up. Mr. Ingham, of Philadelphia, for the Eastern Pig Iron association, composed of the smelters of the Aleghenies, asked a restoration of the duty of the McKinley rate of \$6.72 a ton (present rate \$4.) "If we raise the duty on pig iron we must on all," said a member of the committee.

"Not necessarily," was the answer.

We were thrown into frequent personal intercourse, and I can conscientiously say that he impressed me as a man above all others to successfully represent one of the new states, and without derogating from the merits of any other of the new senators, I will say that he led them all, and was able to accomplish more than the group of new states than any other senator or two senators. I know that he is a protectionist and in accord with the general principles of the Republican party. His speeches on the tariff show that, and his work generally along that line establishes this beyond all question. In the readjustment of party lines it is possible that Idaho may send a better man, but I do not believe it. Whoever is sent will go to the tail end of the unimportant committees, and will be Populist, he would take his place in that small practorian band, who, however sincere they may be on the tenets and doctrine of the Populist party, are, after all, but legislative guerillas playing the part of 'political cowboys' of the revolutionary war between the two great contending parties of the country. FACTORIES ACT OF AUSTRALIA. One of the interesting and elaborate pieces of labor organization of the age is the factories act of Australia, which is about equally divided in contents between good provisions and better reading. It has in some clauses what would read as strangely to a Chicago labor man as might, say, the constitution of the first feudal laborers' union. One of hese clauses is that permitting Jewish actories to keep open on Sunday, only Jewish employes to work. ing the winter season in New York, says the New Tork Journal. Others who spend a like amount for gowns bonnets, wraps, underwear and the numerous articles that go to make up the outfit of a New York society woman are Mrs. John Jacob Astor, Mrs. Her-mann Oelrichs, Mrs. Pierre Lorillard Ronalds, Mrs. Cass Canfield and Miss Virginia Fair. Mrs. Belmont, however is not so extravagant as some of these ladies, but, at the same time, it is claimed that her wardrobe is more complete than that of any society woman in New York. The \$25,000 which Mrs. Belmon

spends on her winter wardrobe would support for one month 7051 tenement house dwellers in this city. It would save many from erime and reseue others from death. From the horse show, when the so-

cial season in New York is supposed to commence, until Easter, when it comes to an end, Mrs. Belmont usually spends at least \$25,000 in the purchase of articles of ralment. This does not include any of her other personal expenses, such as the cost of flowers, the pay of ladles' maids, money given in charity, the cost of opera and theater boxes and the charges for entertainment and household maintenance. On clothes alone Mrs. Belmont thus spends in a single winter season what would be a fortune to the ordinary man. Just how she manages to spend so large a sum of money as this may be seen from the following table: 10 gowns for ball and opera\$3,000

Something Which Uncle Sam Will Try in the Mail Service.

Everybody Can Have Branch Postoffice at Their Home.

If Successful, Will Be Extended to All Homes.

Another innovation in the postoffice de artment is to be introduced soon. A trial the Idea is to be made in Washington and if it proves successful there it will be nt into use in all cities where the free elivery system prevalls, says the Cln-Innati Enquirer. By means of the latest plan every family in the city will be nabled to have a branch postoffice at home. It will be made of transparent celluliod, the edges being bound with a thin sheet of composite metal. It will be six inches long and three and a half inches wide, being flat, like an ordinary envelope. Pasted against the inside of one face will be a printed list of instructions, carefully prepared by the postoffice department, explaining every detail of the new system to the user. Through the trans-parent celluloid forming the face will be the open end of the pouch, and may be pulled out or slipped in, like the cover of a photographic plate holder.

The indellible printing on the movable slip consists principally of five lines, indicating different quantities and denominations of stamps. Your purchase is limited to five 2-cent, twenty-five 1-cent, two 5-cent, five 1-cent or twenty-five 1-cent

The new private branch postoffices

The new private branch postoffices, which will be officially known as house collection and delivery boxes in connection with stamp selling envelopes, are to be improvements on the boxes authorized for use in the house to house collection and delivery system, adopted in several cities by the last administration. Some may be screwed to the front door, the opening to the compartments extending through and the compartment themselves being on the inside; others may be fastened to the inside of the house. The arrangement of some into compartments—the collection compartment and the delivthe collection compartment and the delivery compartment—enables the carrier to hold the regulation key to one and the owner a different key to the others, thereby preventing one owner from hold-lug n key which will unlock his neighbor's boxes, as would be the case if the uniform carrier's key opened both of the compartment doors. The owner may learn whether nail has been deposited by a moving lever extening into his house. Of course no boxes except those tested and sold by the postoffice will be allowed in the service. Uncle Sam expects not only to benefit his citizens, but himself also by adopting this interesting system. By the introduction of the stamp-selling ponch he expects to increase his sale of stamps. It is estimated that the time which will be saved by postmen, who when dealing with putrons of the new system will no longer have to walt for tardy servants to open doors, will more than compensate for the extra minutes expended in their collection from the individual boxes, Speaking of the adoption of the new systems, by nent doors. There was an example of this watchfulness one day during the past week. A human brute was driving four horses with a heavy load attached to them and it was noticed that one of the leaders could not step on one fore foot without pain. The horses were stopped and it was discovered that the alling horse had just been shod and that a nall had been driven into its foot, upon which it had been forced by blows to walk over the cobbles.

The suggestion has often been made that California is the place for the poor man. There is probably no other place where peddlers can get the motive power for their wares at a rate of a horse for 70 cents.

SUBMARINE SEARCHER.

Queer Craft to Be Constructed in Baltimore.

A submarine locomotive and a train of freight cars, to be used for wrecking purposes, are about to be constructed. The contract has been signed and the materials for the craft are already being prepared at Baltimore, says the New York Sun. The inventor proposes to find sunken vessels along our coasts, emove the cargoes and raise the hulls, The craft is to perform all kinds of submarine work, such as laying foundaions for piers, lighthouses, bridges docks and breakwaters. She may also make journeys among beds of coral of sponge for business purposes, and take lown scientific and pleasure parties for an inside view of the ovean. The boar is to be able to descend to a depth o 300 feet, and to sink or rise at the wil of the operator in the pilot house. When searching along the coast for valuable wrecks, the locomotive will carry searchlight.

The inventor, Simon Lake, of Baltimore, has already accomplished many of these things, he says, in an experimental boat. He has witnesses that he propelled his model on the surface in any desired direction, submerged the boat and brought her to the surface again, and guided the locomotive along the bottom of the Atlantic coast and walked out on the craft while it was under water. He has found marked articles which had been thrown over board and returned them to the beach The machine is to carry six men, a captain, an engineer and four divers. The hull is to be built of steel, and strongly ribbed, to withstand a pressure of 130 pounds to the square inch, which is the pressure at a depth of 300 feet. The wrecker is dided into four compartments, the engine and living room the divers' room, with an air lock, and the lookout and operating chamber in the bow. In the engine room will be placed the steam engine and boiler which are to operate the vessel when she is running on the surface. PERIL OF NON-VACCINATION.

A pamphlet just issued by the Jenner society of England outlines, in a most effective way, the history of the terrible and utterly needless outbreak of smallpox which last spring and summer convicced the residents of Gloucester of stupid ignorance. It seems that in the ten years from 1886 to 1885, 15,682 children were born in that city. Of these, 3176 died, 2378 were vaccinated, and the other 10,128 grew up wishout any protection from the dread disease. This was because the place had become a noted center of the anti-vaccination craze, and the local authorities had either shared or yielded to that form of lunacy, and allowed all who chose to violate the law that has made civilized communities as safe from epidemics of smallpox as Nova Zembia is from yellow fever. The result of this was that the total number of vaccinations there, which amounted to 1095 in 1886, fell to 472 in 1887, to 140 in 1888, and to 34 in 1894. At last, of course, somebody brought the malady to Gloucester. That was toward the end of 1895. It attacked about 2000 persons, of whom about 400, chiefly young children, died, and it was stamped out in little more than two months by systematic and diligent vaccination and revaccination, so that, having attacked 744 persons in April, 1396, it had wholly disappeared by the end of the following July. In all these months not one vaccinated person took the disease.

Members who did most are Dennis O'Sullivan, a baritone; Joseph O'Hara, a tenor, and Lucy Carr Shaw, a soprano, all identified with the play in England. The managers are Coudrey & Duff, who have also brought over the scenery and costumes.

A drama which was performed at the American for the first time bears the title of "Capt. Impudence," It's author is Edward Milton Royle, and he, with work. Daisy Jackson, Elma Lenz and Selina Fetter Royle, has already appeared in it in the West. Its action is made incidental to our war with Mexico, and its story is about the hopeless love of a Mexican girl for a United States army officer. This heroine is encountry during her absence. The girl's passion becomes vengeful through resentment, and she plots to destroy the man and his companions, but later she, it was roughly executed. The opening repents, and saves the lives which her quarrel was well carried and all the net has placed in peril. The actress has lighter positions-the scenes of hypocdone well with this role of a passionate Mexican. The part of the officer is played by Mr. Royle. "Equality" had its first performance at the Savoy. It is a drama of New York society, and deals, as its title indicates, with the question of caste. Inclidentally it touches upon certain phases of politics. "Theories are subordinate to the story," the management says, "and social problems are treated in an original way." The author is E. What is cats today become rats tomorrow, and what is rats to morrow becomes cats next day, and so on round the circle of rats and cats until doomsday-or the time when the Clinton people shall turn out and exterminate the whole institution. But this isn't all. The cats become rats and the rats become cats, as before explained. Also, the cats become more cats and the rats become more rats with a persistent rapidity which makes one's brain reel. If the 1000 cats became 225,000 in two years, the ques-

from a beginning of 5000, provided the rats increase five times faster than the cats. One must consider the fact, however, that the cats will eat more rats than the rats can eat cats. This is important. Also, that many of the rats, having been eaten by the cats, will therefore be incorporated in the cat population, and will be assisting the however, that the cats will eat more eat total to the detriment of the rats. Of course, at the same time, some o the cats will have been eaten by the rats, and must therefore, be sub tracted from the cat producers and added to the rats. Now there is another problem. If the

eats are nothing but rats, then the entire 5000 rats would be eaten by the 1000 cats inside of the first week, and the story would be done more quickly even than the famous tale of Solomon Grundy, which covered a period of seven days, not counting the obsequies which must have occurred the next week. There must be a way out of this. Naturally enough it is a milky way. A third section of the farm will be devoted to cows. The cows, it is to be hoped for the success of the scheme, will give milk. Part of this milk will be fed to the cats. The rest will be made into cheese for the rats. It is so easy to kill two birds with one stone, if you have the right kind of birds and the

right kind of a stone. Here, then, is the project complete First, the farm, which is to be sur-rounded by a ten-foot fence to prevent the escape of the capitalized stock of the company; second, the cows, which will furnish the milk for the cats and for they are inseparable, or will be in the course of a year or two-the cats that are to eat the rats and the rats that are to eat the cats, the cats beoming rats and rats cats.

A fine strike was made a, few days ago on the old road from Speariish to Carbonate on a limestone ledge from which the Iron Hill Mining company was for years in the habit of taking stone for flux in its smelter in Carbonate camp. The discovery is a fissure vein in the limestone, running very similar to the rock at Ragged Top, and assaying from \$200 to \$228 per ton. As soon as the tind was known a stampede was made to the spot, and within a few hours every foot of ground in the vicinity was staked by prospectors, mostly from Spearlish. It is almost the irony of fate that this rich rock should be found where a smelter has been taking flux.

Jan. 11.-(Special to The Herald.)-An Eau Claire special to the Dispatch says: In the circuit court the case of State vs. O'Donnell, charged with the murder of his wife by admin istering strychnine, was called. William H. Frawley, attorney for the prisoner, offered a plea in abatement to the effect that O'Donnell had not been allowed counsel at the luquest. The plea is being argued this afternoon. The trial is expected to commence tomorrow,

al scene marked the retirement from geld. When Altgeld's successor, Governor John R. Tanner, had spoken, an effort was made by State Senator Ma-honey of Chicago to get the floor, but the speaker refused to recognize him. He wanted to make a motion that the joint assembly extend the courtesy of the floor to the retiring governor. While he was trying to get in this motion, Representative Needles moved that the joint assembly dissolve. It

make a short speech, and his name was put on the program by the committee on arrangements. Some of the Repub lican members were opposed to letting him talk, and it was arranged with the speaker before the house met that he would not recognize any demands during the joint session. In this way Governor Altgeld was shut out. It has been customary in the past to recognize the retiring governors at inauguration ceremonies, and no reason was given for the snubbling of Governor Altgeld.

The Very Latest Invention in Teeth! The Latest Improved Logan Crown! PATENT.

An All-Porcelain Crown That Imitates the Natural Teeth to Perfection.

GOOD! STRONG! DURABLE! INEXPENSIVE! REGULAR PRICE \$10.00.

ORDER TO INTRODUCE this new best and latest invention we will for the next thirty days make the first ONE HUNDRED for the ridiculous price of \$2.00. These crowns are nothing cheap in character or construction and rank with the best at the head of the list of porcelains. We therefore, in order to introduce them and with our enterprise, wish to be in the lead with the latest and best inventions before they become common and in general use by others.

If any of your front teeth are badly decayed and require a large gold filling, have instead one of these crowns put in that will match your own teeth precisely at an expense of no more than you would have to pay for even the smallest gold filling and be far more natural, more durable, much less expensive and best of all, no gold showing. This month only \$2.

ways of enormous proportions.
"The present financial methods of the government are largely those adopted during the war, when there were great emergencies. I believe there is a very strong and constantly increasing conviction among our people that some method should be adopted for the retirement of the United States and treasury notes, and that they should not much longer be tolerated as a circulating medium. They have been a hindrance to the prosperity of our governmentment for many years. They are a constant menace to our treasury reserve and to the credit of the government, and when encroachments ar made upon these reserves, commerce stands in fear and trembling. There seems to be a well-defined conviction among business men, from the experiences of the past, that there should be no notes in circulation which should not be retired when their office has been fulfilled. Whether these notes should he retired at once or gradually, I am not disposed to say; but of the necessity of their retirement I think there ean be no question. I would retire them by the sale of long government bonds, at a low rate of interest, if there

can be no better way devised for their withdrawal from circulation. Topeka, Kans., Jan. 12.-Governor Leedy's message is an exhaustive decument of 20,000 words, dealing minutely on the workings of the different state departments and brim full of recommendations. His first utterances touch upon the adverse criticisms on Kansas made by Eastern states, and ridiculing this portion of the country. Governor Leedy goes on to draw a parallel of the degree of prosperity in his state with those of its alleged ma-

With profound regret for the misfortunes of our most pretentious sisters of the East," says the governor, "I congratulate the state of Kansas upor the many simple blessings that have fallen to us in these adverse times While those who clamor for alms in the streets of the crowded cities are many, those who seek assistance from our eady public bounty are few. A resume of the state finances which \$449,000 of which latter are owned by the permanent school fund. The report ters and after treating the subject fully "The percentages of lillteracy are lower and the average of general intelligence is higher in Kansas than in New York and the 'New England' ment; an equitable tax on premiums paid by foreign fire and life insurance companies is recommended and cheaper text books are demanded.

That portion of the message treating of railroad legislation is by far th most important topic discussed by the governor. He attacks the interstate commerce commission as "that subterfuge of justice," whose report is jus issued after eleven years of waiting, and states "that the law under which they were acting was defective and had been held by the court of last resort as inoperative and unconstitutional. Thus," contines he, "after fifty years of effort in this direction, we find that practically nothing has been done toward the control of our corporations; that the question has been delayed and avolded as much as possible in the courts, and finally, at the end, we find the will of the people thwarted and the corporations resting upon bosom of the supreme court with the same feeling of confidence and security that an infant reposes upon the

bosom of a wet nurse. The governor commends a maximum freight law and the board of railroad commissioners be vested with the powers of a court and given the power to adjust fares and freights within the state. In an attempt to overcome the inequalities in interstate commerce suffered by the state, he advises the people of Kansas to seek for justice out of court. This, he thinks, would be found in the states with the Mississlppi river building a road of their own to the tide water by the shortest and most direct route. "If the states of Texas and Nebraska," says he, "would join us in the building of a line to Galveston, the expense of building a road would be mrely nominal, when compared with Many physicians for a long time supthe vast sums of money that would be posed that the remarkable relief afsaved to the citizens of these states through the lowering of freight rates.'

All the robbers and assassins in the history All the robbers and assassins in the history of crime did not slay as many human beings, as consumption kills in a single year. One sixth of the population of the world dies of this deadly pestilence. It lurks in every home and in every public place, waiting for its victims. There is but one protection against it. The microbes of consumption may be safely defied by those who keep their blood rich in tissue building elements and free from impurities. The lungs, if supplied with pure blood, furnish no foothold for the germs of consumption.

Dr. Pierce's Golden Medical Discovery is the greatest of all known blood-purifiers. It is the best tonic and invigorator. As a fleshis the best tonic and invigorator. As a flesh builder it has no equal. It has cured thou sands of consumptives who have been pro-nounced incurable by physicians. It fills the arteries with rich, red, tissue-building

blood, and drives from the system all disease germs. Thousands have testified to its merits.

Mrs. Ursula Dunham, of Sistersville, Tyler Co., W. Va., writes: "I should have been dead had it not been for your medicine. I was nearly dead when I began taking Dr. Pierce's Golden Medical Discovery. I had a pain in my side all the time, had but little appetite, and grew very thin. This was before I was married—five years ago. My baby is now nearly a year old. She was born last March. After she was born I had local weakness. I could not stand up long enough to wash the dishes. In September I began taking Dr. Pierce's Favorite Prescription. I took three bottles and it cured me. I can now do all my work. When my baby was two months old she took a bad cold and had phthisle. Middle Aged German in San Francisco Deliberately Shoots Himself.

Once Worth \$200,000 But of Late He Has Been Practically Penniless.

Julius Hirsch, Another German, Robs His Benefactor and is Locked Up.

San Francisco, Jan. 12.—Henry Miller, a middle-ageil German, entered Kearney street gun store and asked to see some pistols. He was accomodated. and while fitting a cartridge in the chamber of a revolver shown him, he deliberately turned the weapon upon himself and fired. The bullet struck him in the left chest, just over the heart, and he fell to the floor fatally wounded.

At the receiving hospital he said that up to within the past few years he had neen a member of the live stock exchange of Chicago, and had been a heavy handler of cattle. At one time ne bad been worth \$200,000, most of it made in cattle deals. Subsequently he was left practically penniless. About a month ago he had left Chicago and u, Ore. From there he Miller says he has three married daughters in Chicago, but he does not care to have them notified of what he has done, for fear that his act may stain the family name.

The report is of especial interest, for a change of management was made after a very hot fight a year ago, in the interest of economy and other things. The figures which accompany the report of the superintendent show that great sayings have been made. A reduction of \$20 term perintendent show that great savings have been made. A reduction of \$39 per capita per annum has been made in the cost of maintenance, as compared with the previous year. The present per capita the previous year. The present per cupita cost of \$182.94 per annum compares very favorably with that of much older and larger hospitals. When the fact is considered that in proportion to the increase in the number of patients the proportionate cost of maintenance decreases very greatly, the claim that in view of the average number of patients and the elimate the institution is the best from an economic standpoint in the United States is not an unreasonable one. A comparison of the monthly expense lists of the institution for 1895 and 1896 shows a saving of \$25,036. The total sum expended in 1896 was \$70,514, and in 1895, for the same period, \$45,477. he same period, \$45,477. a new term, which promises to be an unusually successful one. The last term was in all respects very satisfactory. The attendance was larger than usual, a large percentage of the students having entered at the beginning of the term. This growing tendency has become to be of great help, both to the students and to the university. It has been found impossible for one to work to any advantage when absent half the year, as has been the case with some in the past. There is also an increasing proportion of students who have entered and will take a full college course, and thus by special work prepare themselves for studies in various professions. SOUTH DAKOTA.

"Then you tried to test her capacity did you?" asked Kenny's attorney. "Well, I just wanted to see if sh ould drink more." "What was your object in that?" "Well, I wanted to know if the

"I thought you just said there were stories about Mrs. Kenny?" "Well, they all came from Kenny's "Why did you want to try her?"

"Well, I believe everyone is a thief until I prove them differently. Anyvay. I think people are privileged to Irlnk beer in this town, where the water Mrs. Kenny was put upon the stand and denied every statement, practically, that had been made by the witnesses on the other side. She said that the nearest she ever came to dancing the "cancan," of which undignified actions one of the witnesses accused her, was an The Epworth league of Asbury attempt at dancing the highland fling. Asked If she ever told Mrs. Crozier, one of the witnesses, that she had a "jag on," she innocently replied "What

loes it mean?" The defendant in the case was yes terday published as the president o the Street Railway Employes' union He does not hold that position, but was president several years ago. Yesterday the case of Elizabeth Amy against C. M. Scott et al. was dismissed by the plaintiff. It was discovered when the plaintiff was put upon the stand that the complaint described one piece of land and the plaintiff owned another The defense would not permit an amendment of the complaint, so the case was dismissed. When the replevin ase of Cargill & Campbell against Ed

lohnson had been called and a jury drawn, it also was dismissed after a little whispered conversation between he parties. The next case taken up was that of Charles L. Spicer against Sigel Pros., to recover \$5000 for a broken ankle. Spicer claims that the defendants causelessly threw him out of their saloon and caused him to break his ankle, while the Sigels claim that Spicer was drunk and disorderly and that he hurt himself by trying to get back in the saloon after he had been

out out. The case of J. H. Upham against H ?. Barbour was closed to the jury at noon, with the court's charge to com at the opening of the noon recess.

TO SUCCEED PALMER.

Springileld, Iil., Jan. 12.—Tuesday, Jan. 19, is the day selected by the senate for assembling with the house in joint session for the purpose of beginning the balloting for a United States senator to succeed Gen. John M. Palmer. A joint resolution to this effect was adopted by the senate today. It was offered by Senator McCloud, of Chicago. The senate then adjourned having been in session scarcely five minutes. scarcely five minutes.

AN OLD SETTLER.

When the rheumatism first pre-empts certain tracts of your anatomy it may be ousted easily, but when it becomes an old settler it is pretty hard to budge. Remembr this when you experience the first twinges of this obstinate and agonizing disease, and attack it with Hostetter's Stomach Biters. It will then "make tracks," and possibly leave you unmolested and in peaceable possession of your own comfort in the future. Peril always attend rheumatism, if it become chronic, on account of its tendency to attack the heart. Usually it is complicated with kidney troubles. Certain it is that the kidneys, when aroused by the Bitters, will eliminate impurities which give rise to rheumatism and dropsy. In inclement or wet conditions of the weather, the Bitters, taken in advance, will often avert rheumatic trouble. Use this genial family medicine for dyspepsia, billousness, headache and constipation.

Baker, grain and stock broker, room 107 Chamber of Commerce and 307 Board of Trade Chiengo, Jan. 12.—May wheat broke under 80e this morning but it was not owing to any pressure of long wheat on the market. The local crowd got short breaking the price and as there was not much wheat coming out, they immediately started to buy it back and in doing so but the market up a cent. Since diately started to buy it back and in do-ing so put the market up a cent. Since then the mraket has been steady, selling up to Sic. At noon it is 80%c. Demand seems to have failen off. Liverpool ca-bles were a little lower at the opening but the decline was regained later, the market closing steady. Late continen-tal cables all show a decline. Receipts in the Northwest compared with last year tal cables all show a decline. Receipts in the Northwest compared with last year show more liberal. A cable from Calcutta says good rains have fullen there and more needed. A fresh cable from Argenline says he exportable surplus there will not be over 13,000,000 bus. Clearances for the day moderate. Some more wheat sold nominally for export today. We understand it goes into the river instead of going East by rail. Attention has been often called of late to light receipts and good demand for wheat but you will notice that in the last four weeks our visible has only decreased 412,000. It will last a good while at this rate. Our market is rather narrow. The man who does not take profits on either side of the Secretary Olney's Hands.

Washington, Jan. 12.—The deep-water ways commission, appointed by President Cleveland in November, 1895, has finished its report and submitted the same wheat in St. Louis, Could only sell a little at that. LAKE CARRIERS.

Big Crowd Present at the Detroit Meeting.

Detroit, Jan. 12.-An immense and prosperous looking crowd of men assembled in Hotel Cudiliac today at the annual meeting of the Lake Carriers association. Capt. James W. Millen, of Detroit, was unanimously elected president at the opening session. Capt. Millen's name was presented by Capt J. S. Dunham, of Chicago, who had been considered the Detroit man's stronghold.

The secretary's annual report gave no hint of the action decided on in the way of an election. The question of increased facilities for rapid loading and unloading of cargoes will be treated more radically at this meeting than ever before. Shortage and overrun of grain will be considered, the shortage when it exceeded the overrun, having hitherto been charged against the vesscis. The report of the board of managers stated that the tonnage of the association had increased over 61,000 tons in the fiscal year.

JOINT TRAFFIC MEETING. New York, Jan. 12.-A sub-committee of the board of managers of the Joint Traffic asociation and a committee the lake line managers met today t consider the new agrement prepared by the lake managers, which involves co operation with the Jeint Traffic assoc ation. It is said the new association identical with the old one. Officers ar to be retained and an arbitrator at pointed. If the agreement meets with the approval of the board of manager it will go into effect as soon as a meeting of the Joint Traffic presidents can be called to consider it.

Wisconsin's Federal Grand Jury Grinding Them Out.

Madison, Wis., Jan. 12 .- The grand jury in the federal district court returned a number of indictments yes terday. In all fifty-five indictments were found, most of them for selling liquor to Indians and for timber trespasses. An important criminal case is that of the three counterfeiters. William N. Blair, Nicholas Blair and Matthews H. Richardson, who stand charged with making and passing counterfeit money. Three years ago they were first arrested, but escaped by breaking jail at Prescott and have since that time been at large. They were recaptured last week i St. Paul and brought here by the United States marshal and are now confined in the county jail here awaiting trial. They will defend their case Yesterday they were taken before Commissioner Stewart, but not being able to furnish bail they were returned Rooms are quickly rented when ad

THE TRUE REMEDY.

W. M. Repine, editor of the Tiskilwa, Iil., "Chief," says: "We won't keep house without Dr. King's New Discovery for Consumption, Coughs and Colds, Experimented with many others, but never got the true remedy until we used Dr. King's New Discovery. No other remedy can take its place in our home, as in it we have a certain and sure cure for Coughs, Colds, Whooping Cough, etc." It is idle to experiment with other remedies, even if they are urged on you as just as good as Dr. King's New Discovery. They are not as good, because this remedy has a record of cures and besides is guaraniced. It never falls to satisfy. Trial bottles free at Duluth Drug company's drug store.

The principal thing desired is a "dry" ummer road from a point about nine! miles north of Hibbing to a point which strikes the county line between Itasea and St. Louis counties, and the proper time to build it is the present. There are a number of homesteaders along the proposed road who in summer are nearly shut off from reaching Hibbing.

VICTORY FOR THE HARTMANS. The above dispatch from St. Paul news that comes from St. Paul today indicates that the Hartmans won a clear victory. The receiver was disharged and the court directed that he Hartmans should pay the interest mounting to \$37,000 and the real es ate taxes amounting to \$300 by February 1 and said practically that he would then discharge the bill of complaint. The complainants wanted them ordered to pay the personal taxes, but these are in dispute and the court refused to hold them to pay

JUDGE LOCHREN'S DECISION. St. Paul, Jan. 12.—(Special to The Herald.)—The following is a literal copy f Judge Lochren's decision in the Central Trust company of New York vs. the Duluth Gas and Water company: "I do not think there is any doubt specially in view of the Winona case that this action can be properly maintained to foreclose the mortgage before the expiration of the ninety days, and that although the general rule is to give notice of an application for a receiver yet there may be a case of emergency where a court will act ex parte under showing of sufficient reason withou such notice. Now, in this case, as presented when a receiver was asked for there was a charge of mismanage agers of the corporation, having for it object the wrecking of the corporation in the interest of the electric light company, another competing corporation, It does not seem to me that charge i borne out by the evidence. I do no think that result would necessarily foi-

petition between them. From the showing that is made I do not think there is any evidence of mismanagement on the part of the defendant company in the interest of the electric company. "It does appear, from letters which have been introduced in evidence by Mr. Coffin, Mr. Gay and Mr. Hartman, that arrangements were being considered by these parties for a sale of this water and gas plant to the city of Duiuth up to the time when the last installment of interest became due, upon basis which had been agreed upon, abstantially, between the parties. Mr. offin and Mr. Gay claimed to represent he bondholders and to act in their inerest, although when called upon to valve the default for the payment of inerest on the bonds they declined to do so, and claimed that they had not authority to do that particular act, and therefore declined to waive the default, leaving the matter for the bondholders

pectation on the part of Mr. Coffin that the understanding had between the parties might subsequently be carried In view of the somewhat secret proreedings that were instituted afterwards, by which this receiver was appointed, certainly there would be no

Mr. Jacobson also offered a resolution requesting the board of regents of the state university to give information relative to the disposition of lands which were granted to it, known as the Salt Springs lands. The lands were granted to the state by act of congress in 1857 and were transferred to the state university. A geological survey was made and the twelve salt springs were located on the lands. The board of regents are asked to report what lands have been sold and what further legislation is desired to complete the geological survey and to dispose of the property, and also what will be the probable expense of further proceedngs under the survey. Mr. Jacobson stated that 46,000 acres of these lands had been surveyed, and it is desired to ascertain what lands remain undisposed of. The resolution was adopted on motion of Mr. Snyder, of Hennepin.

THE DAKOTAS. NORTH DAKOTA. Adam Penning, who committed suicide at Ashiand Saturday, was well-known at Wahpeton, having conducted the Wahpeton house for two years. He came to Wahpeton from South Dakota with a young woman whom he introduced as hi city banks \$800. This seemed satisfactory

to her and things moved along smooth until September, when, one morning, until September, when, one morning, it developed that the woman had taken the money out of the bank and eloped with a mulatto porter. It has been learned that he had a legal wife and family living in Grand Luxemburg, Germany, and that wife No. 2 had probably married him for his money only. Penning at one time was very wealthy, but lost heavily in real estate speculations in South Dakota. He also had a fortune left him in Germany which he partly lost in this country. He disposed of his hotel effects after the woman left him, and at times appeared greatly excited and despondent, but no one here expected he might commit suicide. Said to Be Committing Outrages in Alaska.

New York, Jan. 13.-A dispatch to the Herald from Paris says: 'The St. Peters-Herald from Paris says: The St. Petersburg correspondent of the European edition of the Herald writes that serious complaint against the existing state of affairs in Alaska are brought by the Svet. It is alleged that a handful or Russians remaining in the territory suffer under all sorts of vexations and suffer under all sorts of vexatious and even oppressive acts on the part of American traders who "run" Alaska. It is claimed that a number of the company's agents entered a Greek orthodox est, as some sensational testimony will church during service with firearms in the introduced by the defense. their hands to drive the congregation out to work, and that the Russian teacher, having refused to give his lessons in English, Americans threatened to burn down his school. General condemnation is brought against the government at Washing-

The home receives annually about seventy-live new children and is compelled to keep many of them on hand for a considerable time before a sultable place can be found for them.

It has been just a week since wait has the found for them.

It has been just a week since mail has been received at Britton. The storm of Jan. 3 and 4 was by far the worst since the county was settled. There is hardiy a house in Britton that was not damaged by snow blowing in over cellings and metting there so as to spoil paper and loosen plastering so it would fail off. A great many chimneys were blown down and shingles blown off from roofs. About half the windmills in the county were weeked. The wind must have reached a velocity of seventy miles an hour. Enough snow would blow through a keyhole on the north side of a building to half fill a small room.

Robert Cochrane is Expected to Go Before the Republican Convention.

Less Excitement This Year Than Usual Over the City Election.

The political atmosphere in the Eighti ward is extremely dense at the present time and it is difficult to prophesy who is in the lead for alderman. There are no lack of candidates, however, and there is a whole swarm of bees buzzing around the heads of ambitious citizens of this ward ing candidates at the present time Thomas Olafson, Robert Cochrane, E. W. Mosher and J. M. Martin. Of the number mentioned Robert Cochrane is suppose to be the only one who will go before th Republican convention for nomination the others it is understood being desirous This is not taken to signify that Mr. Cochrane will be the only candidate be fore the convention but just who will of pose him has not yet appeared. The names of Elmer Mitchell, A. F. Stewart and Dr. McCuen, of New Daluth, have been mentioned in connection with the nominations but as yet there has developed no open fight for any of the above citizens. It is understood that some of the Scandinavians are looking for a candidate of their own nationality on the principle that it is an unwritten law of this ward that one of their nationality should hold that one of their nationality should hold an aldermanic seat alternately with an There seems to be less excitement over the city election at this time of the year than usual probably owing to the fact that the majority of people got winder with the long tedions presidential campaign and are inclined to take a reflet from political controversy.

NEW YORK STOCKS.

More Encouraging Tone at the Opening.

New York, Jan. 13.-The stock market opened fairly active and firm, with gains of slight fractions in most instances. Business was well distributed, with Sugar and the grangers prominent Business at 11 o'clock was increased in volume, with decided improvements in most shares. Purchases by the arbitrage houses accelerated the upward movement, which was also stimulated by the excessive ease of money and the aggressive strength displayed by rail way and miscellaneous mortgages on investment purchases. The duliness of general trade, coupled with speculative activity in stock circles owing to dis position to await developments at Washington, is foreing capital to seek adequate returns in higher grade securities and an accumulation of sterling exchange bills. Consolidated Gas jumped 3 per cent to 143 on more favorable advices as to the status of affairs at Albany in regard to measures, and Wheeling and Lake Eric fell 1.02 to 1.09 on prospects of further disturbances

in coal rates. The market lapsed into duliness after the first hour, and lower prices were recorded in a number of instances, due to realizations. The losses were frac-tional aside from Wheeling & Lake Eric preferred, which lost 11/8 per cent. St Paul & Duluth was conspicuous for : gain of 1/2 per cent after a long period of neglect. Toward noon purchases for both accounts caused a broadening market, and in some stocks the best prices of the morning were reached The sales to noon were 62,000 shares.

AMERICAN HARDWOODS.

The demand for American hardwoods in Europe is growing, and oak leads the foreign shipments, although tulip, poplar, ash, gum and black walnut, whenever a good quality can be secured, are in some demand, says Garden and Forest. European consumers like the quality of American oak, and, since it is known to be plentiful here, it will probably be in increasing demand. Cottonwood has been shipped to Germany in considerable quantities, where chenp wood is required for furniture and other uses. Much of this lumber is forwarded from New Orleans and since a great part of the oak, ash poplar, cottonwood and other timbers demanded by the foreign market is in the Southern states, it is not improbable that lumber for foreign markets will be largely shipped in future from the Gulf ports. In speaking of this matter the Northwestern Lumberman says that the European AMERICAN HARDWOODS. In speaking of this matter the Northwest-ern Lumberman says that the European market requires lumber out of exact thickness, and of accurate length trimmed so as to have the buts square and true. Space for piling in the yards of the old world is an object, so that random, uneven lengths are objectionable, and, since the foreign buyer insists that he shall have just what he bargains for, quality should be strictly attended to.

JOHN BROWN'S LAST LETTER. Tora T. Case, of Hudson, Ohlo, has resirrected the following letter to himself from old John Brown, of Ossawatomie, the last written before his death, and never before published, says the New York Mail and Express.
"Charlestown, Jefferson County, Va... Dec. 2, 1859.—Tora Case, Esq.—My Dear Sir: Your most kind and cheering letter of the 28th of November is received. Such an outburst of warm-hearted sympathy, not only for myself, but also for those who have helped, compels me to steal in the first with a horrid drummer. Be that as it may, I am now \$50 to the good, besides the filtration, and I'm not saying a word, am I?"

The town refused to support the enterprise prepmanager" reported that he could find no business to manage ,and added that the bills were coming in too fast to be dedged. So the editor with a sigh agreed to go out with him and hustle for advertising. with him and hustle for advertising.
On Clark street they saw a crowd standing in front of a window. In the window was a woman with hair seven feet long, Inside the place there were other long-haired women, and a loud-voiced "barker" was busily explaining the marvelous properties of his magic hair invigorator.

"Let's go in and strike 'em for an ad." said the editor.

"No use," replied the business manager. "I've tried it a dozen times. They won't do it."

"Let me tackle 'em, then," said the edi-tor, and a moment later he had pushed and elbowed his way through the crowd and stood before the "lecturer." "Good afternoon," sald the editor, "How are you today?" The hair tonic man stopped talking long enough to bow.
"Remember me?" continued the humorist.
"N-no, sir; can't say that I do," said the "barker."
"That's mighty queer," went on the editor. "Don't you remember that I came in here three weeks ago and bought a couple of bottles of your stuff?"

The tonic man couldn't recall the occurrence.

currence.

"Well, it isn't at all strange," remarked the humorist, "that you should have forgotten me. I was as bald as a billiard ball then, and now look at my hair." The lecturer instantly remembred a about the occurrence. He was surprise about the occurrence. He was surprised, of course, to see the remarkable results accomplished by only two bottles of his celebrated mixture, and heartly congratulated the editor. The crowd began buying hair tonic with all the eagerness of a young turkey picking up corn.

"I'd like to see you a minute about another bottle," remarked the editor, and the "barker" took him to the rear of the room behind a screen.

"You're all right," said the tonic man as soon as they were alone. "Ever been in the business?"

"No," replied the humorist, "but I wish I had, I've given you an advertisement; now I want you to give me one. I'm runnow I want you to give me one. I'm run-ing the Bazoo, and a column will cost you \$20 even. Is it a go?"

Flirtation of a Bold, Bad Drummer.

It was.

As usual, it was the drummer who was alking, says the Washington Star. "They may talk as they please," he was saying, "about the naughtiness of flirting with the dear creatures, but it sometime pays, and pays in cash."
"You don't mean to tell me," remarked a severe-looking person with a gray whisker and a stiff hat, "that you have ever made any money for your house by one of those disgusting filrtations I have seen some of you chaps carrying on an trains and elsewhere?"

FIVE YEARS IN PRISON.

Pete McKenna Sentenced at Grand Rapids For Arson.

Grand Rapids, Minn., Jan. 13.-(Speciai to The Herald.)-On Aug. 27, 1895, Napoleon Russell's house was burned, chine be throwin' down th' raw-on-th'-shell in township 60, range 24, John Bakken, man. No candydate f'r th' United States who had been left in charge of the house, disappeared at that time, and what was believed to have been the charred bones of Bakken were discovered by the neighbors on the day following among the smouldering embers, Suspicion pointed to Pete McKenna, know as "One Eye Pete," who lived about a mile from the Russell house, and bore the reputation of being a petty thief, as one who may have killed Bakken and then burned the house to hide the greater crime. He was brought to Grand Rapids as a witness before the coroner's jury, which returned a verdict that Bakken dled at the hands of some person unknown to the jury. McKenna was arrested, indicted and tried on a charge of murder. His attorney, C. C. McCarthy, secured a dismissal of that case, just as it was going to the jury, on the ground that the body of the case (the corpus delicti) had not been proven.

At the following term of court another indictment for murder was found against McKenna, a jury was empanneled and the case was about to proceed when Attorney McCarthy secured the discharge of the prisoner on the counsel, Attorney McCarthy having

H. C. Helm was elected president. Several informal ballots were taken, Mr. Helm, for whom his supporters insisted on voting despite his announcement at the start that he would not be a candidate, getting up and withdrawing after each one. The more he withdrew the more they voted for him Finally Harry Armstrong and W. W. Allen, who, with Helm, led in the in formal balloting, withdrew in the lat ter's favor. This cinched Helm and he succumbed, accepting the position. The other officers elected were: W W. Allen, vice-president; W. A. Washburne, secretary, and N. L. Summer field, treasurer. THE MURDER CASE. Charles Lieias to Be Placed on Trial Friday.

The eriminal calendar was taken up before Judge Ensign this afternoon, being the regular Democratic ticket nominginning with the case of Charles Carlated at Chicago. Several senators and son, who was indicted for grand larceny firmatica. in the second degree. His alleged crime consists of the theft of a buffalo robe during one of the cold snaps this winter. The criminal calendar will occupy Judge Ensign's attention hereafter until it is concluded, which will be in a week or two. The most important criminal case that against Charles Lieias, for murder in the first degree, will probably be taken up about Friday. The theory of the defense will be that the murder was committed in self-defense. The prisoner asserts that he had been warned against the dead man, and that two years ago the latter took a file with sharp point, and went looking fe Lieias, stating that he was going to kill him. He also claims that he made similar threats the night of the tragedy and that before the killing he stabbed Lieias in the shoulder, bringing the first blood. M. H. Crocker is the prisoner's

New York, Jan. 13.-Members of the altimore & Ohio reorganization conmittee say that the current rumors of possible assessment of \$40 a share on he stock are not worth a moment's onsideration. From present indications the assessment is not likely to exceed \$12 or \$15 a share. It is certain the collateral securing the floating debt will be availed of, if practicable, to rehabitlate the company.

MIRRORS OF AIR. The cause of the mirage is now well understood-so well understood that there are ways of making small mirages for experiment, says Tudor Jenks in St.

The simplest explanation that I can give is to say that the rays of light coming from the thing that is seen are bent in going through layers of air different ly heated. When these rays are so bent as to be almost level with a layer of air, they do not enter it at all, but (so to speak) glance off, and are reflected as if from a mirror. Then the air reflects just as a glass mirror or a body o water would, if it lay between the eye and the trees or ship

This explanation will give you a general idea of the cause of the mlrage. In the case of the desert the reflecting air mirror is believed by the observer to be water, and the image changes its place as you go forward just as a reflection would move as you advanced on a glass mirror. In the case of the ship the air mirror seems to be above you, and reflects the ship which is really out of sight over the horizon. But different images that may possibly be formed under different conditions of the atmosphere; that is a school room task The "Fata Morgana" is a form o

These resolutions soon proved to be so great in number that at 11 o'clock, when Chairman Patterson announced that the committee on resolutions would be ready to report at noon, a motion prevailed which provided that all resolutions be referred to the committee without reading, so that they might all be reported on at that hour. Cobb, of Massachusetts, moved that the opening address of Stannard be recommended to the committee on resolutions, as expressing the sentlment of the Massachusetts delegation. It was

A motion to adjourn till 1:45 was de feated, and on motion of Mr. Chadwick, to five-minute speeches. Mr. Chadwick reviewed briefly New England's early financial history, and with a view to showing its effect on present conditions. He was followed by Congressman Fowler, of New Jersey, for whose benefit the five-minute obstruction was removed. Mr. Vanslack, of Wisconsin, moved that the paper issued by Mr. Fowler be referred to the committee on railroads. The motion of Mr. Pelsey of Evansville, Ind., on the appreciation of Mr. Fowler's paper was expressed by a rising vote. At 12:20 o'clock word was received that the committee on resolutions would not report until 2:30 p. m., and

the convention adjourned till that hour.

San Francisco, Jan. 13.—The big battleship Oregon, which will weigh anchor at 2 o'clock this afternoon and move to Sausali preparatory to going to sea on Thursday, it is said, on a voyage to Acapulco. There have been rumors that the Oregon will not go to sea for several days, but owing to the secrecy which has been maintained her destination could not be learned. At any rate the big battleship has taken aboard an enormous amount of stores during the past few days and has enough coal in her bunkers to carry her on a long voyage.

The only thing that seems to be against her going on such a lengthy cruise is that she had been lying at anchor off the Union Iron works for months, and, being a new ship, her bottom must be very foul. In fact, It has been reported that men have recently been at work scraping her sides to the water's edge in order to conceal her filthy condition.

SEATTLE BANK FAILS. Seattle, Wash., Jan. 13.-The Seattle Trevillion, Mr. President-16. Savings bank has closed its doors owing to heavy withdrawals of county funds by newly installed officers Monday Judge Monroe, on petition, appointed H. O. Shuey receiver. The statement is made by bank officials that the affairs of the institution are in good shape, but not prepared for a run. The liabilities are \$70,000, and the assets \$104,000. The accounts among the latter regarded as, first class are between \$80,000 and \$90,-000. The institution will liquidate its obligations dollar for dollar.

At the time the bank closed \$5200, deposited by ex-County Treasirer Maple, had not been transferred to his succes sor. The sum is secured, as Maple required a security bond of \$75,000 of each bank that he did business with. No attempt will be made to resume business. Bankers generally concur that the Seattle Savings bank was conservative in 1890 with \$50,000 capital.

OREGON DEADLOCK.

Bitter Fight There Over Selecting a Speaker.

Salem, Ore., Jan. 13.-There is no change in the deadlock on the speakership. Neither side shows any indication of surrender. The Benson people say that the Populists have made overtures agreeing to come in and form a quorum if they are given certain concessions in the matter of legislation The Populists emphatically deny the report, and say they made no tenders. It seems to be the purpose of the minority to delay organization for the purtor. It is not expected that the house will be organized today.

There are no new developments in the senatorial contest beyond the claim of the Mitchell men that they bave fifty signatures for a caucus, four more than a majority. They also claim they will secure another signature today. While it is admitted by the opposition that he time arrives, and that there will be

UNION PACIFIC.

New York, Jan. 14.—The Herald this revenue and note issue departments morning says: Reports were in circu lation last night that the Union Pacific reorganization, having now within its control nearly all of the bonds and stock of the company by agreement under which they were deposited, is ready to bid a fair sum for the road from Omaha to Ogden. The program is said to be to take up the government bonds on both the Union and Central Pacific roads so as to give them a through line to the coast. According to the report, the support of the Vanderbilts and J. Pierpont Morgan is expected to be obtained. In fact, if it is carried out, the Vanderbiits' road would secure a through line from

Omaha to San Francisco. This would give a continuous system forty-five, and five members thereof from Boston and New York to the Pashall at all times constitute a quo- cific coast, and it would constitute the strongest system in the country. Great Care Taken to Prevent Publicity of Treaty Before Ratification.

Vancouver, B. C., Jan. 14.-Among the Oriental advices brought by the steam er Empress of Japan are the following: It is stated at Hong Kong that previous to Germany's objection, Great Britain had objected to receiving H. E. Huang as Chinese minister. It is also claimed that Li Chang, a Cantonese one of the returned students from the United States, will replace Huang. Although a secret treaty between Russia and China is denied by both Chinese officials and the Russian minister, the Pekin correspondent of the North China News says that it is only too true, and that long ago he had stated that China had sold herself to Russia to an extent which would not be believed. During his wanderings, which extended over a period of twenty-four hours, he reached a point fifteen miles from home, before the storm ceased, and he was enabled to get back to his anxioue family. After reaching there he learned that his cattle had strayed, and after a brief rest and hurried meal started out to gather them together. Before being found his friends thought there was no question that he had perished, and his remarkable escape will be for years referred to in that region as one of the most mirauculous on record.

The lowest price was made at the opening on the lower cables and higher price made on covering attributed to a large St. Louis short. The advance was only stopped by the calls. The bears attempted to raid the market under 79c but the market was apparently oversold and smaller shorts bought steadily all day. The seaboard clearances were the largest for many days, five Atlantic ports exporting equal to 750,000 bus of wheat today. The statistical news remains extremely builish and with more non-professional trade the market would be in good shape to advance. Tracey, forng with more care, what purports to be he text of the treaty, I am led to doubt whether we do not by this treaty agree to submit to the arbitration of European monarch the whole question of the Monroe doctrine and our right to enforce it. By article one it is provided that the high contracting parties agree to submit to arbitration, in accordance with the provisions of this

tween them which they may fail to adjust by diplomatic negotiations. "Secretary Olney is reported as de claring that by this treaty England has recognized and affirmed the Monroe doctrine. I fail to find any language in this treaty which justified any such in ference; on the contrary, it seems clear that if this treaty is ratified, the United States binds itself to submit to arbitration its rights to enforce the Monroe doctrine as against England. The language of article 3, whether so intended or not, would seem to provide for the exact rules that exist under those circumstances. Certainly, if England should purchase either Cuba or St. Thomas, her right to have access to control and enjoy the territory thus purchased would constitute a territorial

claim within the meanings of the language used in article 9. AN OLD SETTLER.

When the rheumatism first pre-empts certain tracts of your anatomy it may be ousted easily, but when it becomes an old settler it is pretty hard to budge. Remembr this when you experience the first twinges of this obstinate and agonizing disease, and attack it with Hostetter's Stomach Biters. It will then "make tracks," and possibly leave you unmolested and in peaceable possession of your own comfort in the future. Perli always attend rheumatism, if it become chronic, on account of its tendency to attack the heart. Usually it is complicated with kidney troubles. Certain it is that the kidneys, when aroused by the Bitters, will eliminate impurities which give rise to rheumatism and dropsy. In inciement or wet conditions of the weather, the Bitters, taken in advance, will often avert rheumatic trouble. A decision of Secretary Hoke Smith in the case, made last June, was re celved here today with the other. In this he revoked a decision made in April, 1895. The point in the case briefly is this: The land was originally entered in 1881 by Joseph Roeinski, who proved up and transferred to Henry Stephens. His entry was contested several years afterward, and in November, 1890, was cancelled. William Nevview contested his entry.

Stephens' duty, he says, to have filed with the local land office evidence of his interest in the entry. The entry was not cancelled until November, 1890. more than seven years after Stephens had made his purchase. The petition for reinstatement was not filed until June 18, 1892, and in all that time no word was heard from him or his representatives, and no notice was given of his claim, "What right, then, have sonal service could have been made; in local banks in the inski's entry was cancelled.
